Date/Time of Departure: ______________________________________

Estimated Date & Time of Return: ________________________________

Purpose of Trip: _____________________________________________

Name of Driver: _____________________________________________

Name of Passenger(s): _______________________________________

When parents or students use their own vehicles for authorized school related activities, their personal automobile liability insurance is primary. The Christian Brothers Risk Pooling Trust will only provide excess coverage if a claim or claims arising out of an accident exceed the liability limits of the vehicle owner's insurance policy.

Full coverage for automobile bodily injury with minimum limits of $100,000 per person or $300,000 per accident; property damage coverage of $100,000. The vehicle should also have medical payments, uninsured and underinsured coverage. Medical payment coverage pays for the medical expenses for all the occupants in the vehicle. This is usually written for $5,000 per person for a total of $25,000; however, it is possible to purchase the limit of $50,000 ($10,000 per passenger) or higher. Considering present medical costs, higher limits are a prudent choice.

Can other students ride in the vehicle? YES NO* (circle one)

*It is the parents' responsibility to inform their son that no other students are allowed to ride in their vehicle. The school is not responsible for students who fail to follow their parent's direction.

Signature of Parent/Driver ___________________________ Date __________

Student Signature ___________________________ Date __________

NOTE: Please submit a copy of your Automobile Insurance policy's declaration page along with copies of your current insurance card and Driver's license.
